

#BioInformaticsHub

Watch out for the “Bioinformatics Hub” sign during the breaks - in the Registration Foyer

The hub aims to facilitate stimulating discussions and more understanding amongst each other of how to use computational methods, tools and workflows.

Would you like some advice or help? Or demonstrate your method or tool? Please come by and talk to us!

We'd also like to encourage you to use the Hub as meeting point if you want to meet someone and talk bioinformatics related stuff any time.

Pizza we don't have, Wifi and power we do!

Ralf Weber, Egon Willighagen, Johannes Rainer, Steffen Neumann, Justin van der Hooff, Michael Witting, Reza Salek and many others!

Follow us on twitter for announcements and updates [#BioInformaticsHub](#)
